```javascript
class Level {
    backgounds;
    Enemies;
    clouds
    level_end_x = 1800;

    constructor(backgounds,enemies, clouds){
        this.backgounds = backgounds;
        this.enemies = enemies;
        this.clouds = clouds;
    }
}
```
